The world is changing and we have to keep abreast of these changes. New, innovative procedures appear, the system of training and education is changing. Besides presenting an overview of the history and the current changes of our field, we will aim at refreshing and updating our knowledge we have gained till date.

Our speakers are renowned domestic experts and internationally known and acknowledged physicians. What would we like to hear at the end of our event? That it was worthwhile coming here because we were strengthened in our understanding, our knowledge got enriched and the information we learned again or acquired here contribute to thriving easier in our everyday life.

Our advanced training is an international event focusing on podology in sports.

The active participation of podology experts is most welcome. Please register with presentations and show us the newest achievements of sports podology.

Come with us! Let us make this Congress a festival of our profession, a forum for the befittingly internationally renowned Hungarian podology traditions and the inherited, traditional profession of podiatrists!
