

# Congress Programme

	Wednesday 12th of May	Thursday 13th of May	Friday 14th of May	Saturday 15th of May
09.00		Registration, exhibition and refreshments	Plenary session	
09.30				
10.00				Plenary session
10.30		Opening plenary	Exhibition, poster viewing and refreshments	Exhibition, poster viewing and refreshments
11.00		Plenary session	Concurrent sessions (Oral and interactive sessions)	Concurrent sessions (Oral and interactive sessions)
11.30				
12.00		Exhibition, poster viewing and possibility to lunch	Exhibition, poster viewing and possibility to lunch	Closing plenary
12.30				
13.00				
13.30		Concurrent sessions (Orals and interactive sessions)	Concurrent sessions (Oral and interactive sessions)	Lunch and departure
14.00				
14.30		Exhibition, poster viewing and refreshments	Exhibition, poster viewing and refreshments	
15.00				
15.30		Concurrent sessions (Oral and interactive sessions)	Exhibition, poster viewing and refreshments	
16.00				
16.30				
17.00		Pre-registration and Welcome reception (17.00-19.00)	Canal cruise on the Amsterdam canals (17.30-19.30) (additional fee)	Plenary session
17.30				
Evening Programme			Congress Dinner (19.00-22.00) (additional fee)	

## Wednesday 12th of May

17.00	Pre-registration and welcome reception
19.00	End of the pre-registration

## Thursday 13th of May

09.00	Registration, exhibition and refreshments	
10.30	Plenary session: <i>Chair: Margreet van Putten, The Netherlands</i>	
10.30	Opening Auditorium	Welcome – Robert Chelin, Canada, <i>Margreet van Putten, The Netherlands and Peter Boelens, The Netherlands</i> Spectacular performance - Women on Wood, The Netherlands
11.10	K1.1 Auditorium	Life: Learn, Earn, Return – <i>Vicki Anton-Athens, United States of America</i>
11.30	K1.2 Auditorium	Evidence Based Practice in Podiatry: state of the art – <i>Antal Sanders, The Netherlands</i>
12.00	Exhibition, poster viewing and possibility to lunch	
13.30	Concurrent sessions:	
	Oral session 1 Auditorium	<b>Podiatric Surgery</b> – <i>Chair: Robert Chelin, Canada</i>
		<ul style="list-style-type: none"> <li>○01.1 Tibio-talar autologous chondrocyte implantation: fundamental aspects on a biopsy site in the ankle – <i>Giovanni Matricali, Belgium</i></li> <li>○01.2 Fifth digit conditions &amp; treatments – <i>Dock Dockery, United States of America</i></li> <li>○01.3 The surgical treatment of the pediatric flatfoot with bioresorbable arthroereisis – <i>Richard Jay, United States of America</i></li> <li>○01.4 Keller Brandes: Negative biomechanical effects – <i>Fernando de Francisco Peñalva, Spain</i></li> </ul>
	Oral session 2 Room G106	<b>Forensic Podiatry</b> – <i>Chair: Ivan Bristow, United Kingdom</i>
		<ul style="list-style-type: none"> <li>○02.1 The role and scope of practice of forensic podiatry – <i>Wesley Vernon, United Kingdom</i></li> <li>○02.2 Can individuals be reliably identified from CCTV footage using visual gait analysis? – <i>Nigel Harrison, United Kingdom</i></li> <li>○02.3 A comparison of unshod footprints using two different capturing systems - Podotrack and an Inkless system – <i>Gordon Burrow, United Kingdom</i></li> <li>○02.4 The development of a tool for assessing the quality of closed circuit camera footage for the use in forensic gait analysis – <i>Ivan Birch, United Kingdom</i></li> </ul>
	Oral session 3 Room G104-105	<b>Educational Biomechanics track</b> – <i>Chair: Mariëlle Segerink, The Netherlands</i> <i>(kindly sponsored by Tekscan)</i>
		<ul style="list-style-type: none"> <li>○03.1 A longitudinal investigation of plantar foot pressure in patients with rheumatoid arthritis – <i>Catherine Bowen, United Kingdom</i></li> <li>○03.2 Pressure mapping assessments to prevent and treat pressure sores and ulcers – <i>Norman Murphy, Canada</i></li> <li>○03.3 Pressure profiles and force assessments to treat biomechanical foot and gait related disorders – <i>Norman Murphy, Canada</i></li> </ul> <p><i>Interactive session 4 connects to this track</i></p>
	Interactive session 1 Emerald Room	Live foot clinic: Personalized Shoes in sports – <i>Bjorn Lukkien, The Netherlands and Ed Wender, The Netherlands</i> <i>(kindly sponsored by PLT)</i>

Interactive session 2 Room G107	Measuring of the Ankle-Brachial-Index – <i>John Evans, United Kingdom</i> (kindly sponsored by E-medical)
Interactive session 3 Room G102-103	A day at the office of a podiatric surgeon – <i>Matt Werd, United States of America</i>
15.00	Exhibition, poster viewing and refreshments
15.45	Concurrent sessions:
Oral session 4 Room G106	<b>Measuring and imaging of the foot</b> – Chair: <i>Joseph Caporusso, United States of America</i> O04.1 Weightbearing fluoroscopy - A revolution in dynamic foot imaging – <i>Michael Graham, United States of America</i> O04.2 21st Century diabetic foot screening: Control trial of a Novel electronic force sensor (EFS) – <i>Michelle Spruce, United Kingdom</i> O04.3 Podometric and podobarometric study on pregnant women – <i>Gabriel Gijon, Spain</i> O04.4 Comparing Thermotecc insoles and other OTC Insoles – <i>Joseph Stern, Canada</i>
Oral session 5 Auditorium	<b>Evidence Based Podiatry</b> – Chair: <i>Paul Shenton, United Kingdom</i> O05.1 Reliability in podiatric practice with specific application to the Foot Posture Index (FPI-6) – <i>Björn Englund, Sweden</i> O05.2 Therapeutic effects of pneumatically generated low-energy extracorporeal shockwave therapy for plantar fasciitis: a systematic review – <i>Michel Boerrigter, The Netherlands</i> O05.3 Inter-observer and intra-observer reliability of a passive dorsiflexion test of the first metatarsophalangeal joint – <i>Mirjam van Kessel, The Netherlands</i> O05.4 Marigold therapy and homeopathic podiatry - The evidenced based approach – <i>Tariq Khan, United Kingdom</i>
Oral session 6 Room G109	<b>Professionals in podiatry at work</b> – Chair: <i>Diamanto Maliotou, Cyprus</i> O06.1 Podiatry: PR and the media – <i>Emma Supple, United Kingdom</i> O06.2 How do you manage a healthy work life by means? – <i>Jeanette Tulstrup-Kristensen, Denmark</i> O06.3 Special Olympics Fit Feet screening results in Europe – <i>Carine Haemels, Belgium</i>
Interactive session 4 Emerald Room	Live foot clinic: Biomechanics and gait analysis from different perspectives (kindly sponsored by Tekscan) Plantar pressure measurements for patients with inflammatory arthritis - Analyzing appropriate variables – <i>Catherine Bowen, United Kingdom</i> Collecting, analyzing and interpreting pressure mapping data to prevent and treat pressure sores and ulcers – <i>Norman Murphy, Canada</i> Collecting, Analyzing and interpreting pressure profiles and force data to assess and treat biomechanical disorders – <i>Norman Murphy, Canada</i> This interactive session follows oral session 3
Interactive session 5 Room G107	Measuring of the Ankle-Brachial-Index - <i>John Evans, United Kingdom</i> (kindly sponsored by E-medical)
Interactive session 6 Room G102-103	A day at the office of a podiatric surgeon – <i>Matt Werd, United States of America</i>
17.15	End of the first day programme
17.30	Canal cruise on the Amsterdam canals (additional fee)

## Friday 14th of May

09.00	Plenary session – <i>Chair: Margreet van Putten, The Netherlands</i>
09.00	K2.1 Auditorium New paradigms of podiatry-led foot care for patients with rheumatoid arthritis – James Woodburn, United Kingdom
09.30	K2.2 Auditorium The Special Olympics are special – <i>Patrick Nunan, United States of America</i> <i>(kindly sponsored by Tekscan)</i>
10.00	K2.3 Auditorium Education: The Launch of FIP's International Academy of Podiatric Medical Educators – <i>FIP president, Robert Chelin (Canada), Stuart Baird (United Kingdom) and José Roofthoof (Belgium)</i>
10.30	Exhibition, poster viewing and refreshments
11.15	Concurrent sessions:
	Special track Room G102-103 The International Academy of Podiatric Medical Educators <i>(A detailed programme of the special track, including summaries, will be handed out at the start of the special track)</i>
	Oral session 7 Auditorium <b>Biomechanics and gait analysis</b> – <i>Chair: Antal Sanders, The Netherlands</i>
	O07.1 The use of plantar pressure management to optimize orthotic therapy – <i>Paul van Neerven, The Netherlands</i>
	O07.2 An in vivo method of measuring subtalar joint movement during the contact phase of walking – <i>Ivan Birch, United Kingdom</i>
	O07.3 Variation of tactile cues reduce nociceptive capacity of plantar irritating stimulus impact on walking gait – <i>Marc Janin, France</i>
	O07.4 Intra test reliability on the clinical detection and labeling of the subtalar joint axis – <i>Joris de Schepper, Belgium</i>
	Oral session 8 Room G107 <b>Wound management: the challenge for podiatrists?</b> – <i>Chair: Miranda van Mol, The Netherlands</i>
	O08.1 Wound management and 'little creatures': be aware! – <i>Ron Legerstee, The Netherlands</i>
	O08.2 Efficacy of intraoperative surgical irrigation with polihexanide and nitrofurazone in reducing bacterial load after nail removal surgery – <i>Marta Elena Losa Iglesias, Spain</i>
	O08.3 Methicillin resistant staph aureus - It's not just a hospital associated infection. From the locker room to the office and the hospital – <i>Jeffrey Ross, United States of America</i>
	O08.4 Targeted treatment of invasive fungal infections accelerates healing of wounds – <i>Gopi Chellan, India</i>
	Interactive session 7 Emerald Room Live foot clinic: The rheumatic foot – <i>James Woodburn, United Kingdom, Marike van der Leeden, The Netherlands and Karin Fiedler, Australia/The Netherlands</i>
	Interactive session 8 Room G104-105 Examining the Special Olympics Athlete – <i>Patrick Nunan, United States of America</i> <i>(kindly sponsored by Tekscan)</i>
	Interactive session 9 Room G106 Is the skin a podiatric mirror? – <i>Ivan Bristow, United Kingdom</i>
12.45	Exhibition, poster viewing and possibility to lunch

14.15	Concurrent sessions:
Special track Room G102-103	The International Academy of Podiatric Medical Educators
Oral session 9 Auditorium	<b>Biomechanics and (foot)pathology</b> – Chair: Matt Werd, United States of America O09.1 The subtle cavus foot – Julian Livingstone, United Kingdom O09.2 Title and speaker tba O09.3 Plantar orthotics for patients with chronic low back pain (CLBP) decreases pain and improves spine function and mobility – Philippe Villeneuve, France O09.4 Predicting and preventing diabetic ulcerations with computerized gait analysis – Jeffrey Ross, United States of America
Oral session 10 Room G106	<b>Prevention and wound care in (chronic) foot problems</b> – Chair: José Roofthoof, Belgium O10.1 Delayed wound healing as a challenge – Sandra Janssen, The Netherlands O10.2 Bio-electric stimulation and wound healing: A review including diabetic foot ulcer case studies – Henk Snyman, Belgium O10.3 Preventive care of the diabetic foot - Bret Ribotsky, United States of America O10.4 An early surgical intervention of tenotomy and capsulotomy with dorsal toe splinting immobilization, a safe and relative simple procedure to expedite ulcer healing at the distal end of contracted toe: case report – Robert Romaine, United States of America
Interactive session 10 Emerald Room	Live foot clinic: The rheumatic foot – James Woodburn, United Kingdom, Marike van der Leeden, The Netherlands and Karin Fiedler, Australia/The Netherlands
Interactive session 11 Room G107	Robert van Lith workshop; felt paddings and silicone orthoses - Opening by Marie José van Lith, France - Workshop by Jurgen Nijenhuis, The Netherlands and Jeroen Nijenhuis, The Netherlands (Kindly sponsored by Medical Leather and Harmonica)
Interactive session 12 Room G104-105	How to advise your athletes about sports shoes: the Fit for Feet system – Rob Last, The Netherlands and Nicky Narraina, The Netherlands (Kindly sponsored by LFT/Intersport)
15.45	Exhibition, poster viewing and refreshments
16.30	Plenary session Chair: Margreet van Putten, The Netherlands
K2.4 Auditorium	Biomechanics within the podiatric practice – Trevor Prior, United Kingdom
	Concurrent session:
Special track Room G102-103	The International Academy of Podiatric Medical Educators
17.30	End of the second day programme
19.00	Congress Dinner (additional fee)

## Saturday 15th of May

09.30	Plenary session: Chair: <i>Margreet van Putten, The Netherlands</i>
09.30	K3.1 Auditorium The importance of a multidisciplinary foot team; setting up a diabetic foot center – <i>Karel Bakker, The Netherlands</i>
10.00	K3.2 Auditorium The diabetic foot and podiatrists: a good marriage? – <i>David Armstrong, United States of America</i>
10.30	Exhibition, poster viewing and refreshments
11.15	Concurrent sessions:
Oral session 11 Auditorium	<p><b>The diabetic foot in perspective</b> – Chair: <i>Karel Bakker, The Netherlands</i></p> <ul style="list-style-type: none"> <li>○11.1 Neuropathy - The role of pathomechanics – <i>Michael Graham, United States of America</i></li> <li>○11.2 When function of the foot is dramatically changed in diabetes patients? – <i>Diamanto Maliotou-Papasavva, Cyprus</i></li> <li>○11.3 Assessment and management of diabetic peripheral neuropathy – <i>Allan Boroditsky, Canada</i></li> <li>○11.4 A novel robotic monofilament test for diabetic neuropathy – <i>Chumpon Wilasrusmee, Thailand</i></li> </ul>
Oral session 12 Room: G102-103	<p><b>Peripheral foot pathology</b> – Chair: <i>Kees Gorter, The Netherlands</i></p> <ul style="list-style-type: none"> <li>○12.1 Peripheral arterial disease: The unfamiliar cardiovascular risk – <i>Marge Lovell, Canada</i></li> <li>○12.2 Peripheral arterial disease is more prevalent in hemodialysis patients than ever thought - a study using skin perfusion pressure – <i>Shuzo Kobayashi, Japan</i></li> <li>○12.3 Peripheral nerve blockade for biopsy of plantar skin in patients with plantar keratoderma – <i>David Wylie, United Kingdom</i></li> <li>○12.4 Neuropathic pain and its relationship to diffuse osteoarthritis: a pilot study – <i>Robert Ashford, United Kingdom</i></li> </ul>
Oral session 13 Room G106	<p><b>Complicated feet and daily life; a podiatric challenge!</b> – Chair: <i>Jan Verhallen, The Netherlands</i></p> <ul style="list-style-type: none"> <li>○13.1 Forefoot joint damage, pain and disability in rheumatoid patients with foot complaints: The role of plantar pressure and gait characteristics – <i>Marike van der Leeden, The Netherlands</i></li> <li>○13.2 Case study - Nocturnal lower limb pain associated with benign hypermobility syndrome and its management with foot orthoses – <i>Gordon Watt, United Kingdom</i></li> <li>○13.3 Patient and professional delay in consultations of podiatry patients with a diabetic foot ulcer – <i>Mieke Pero, The Netherlands and Lian Stoeldraaijers, The Netherlands</i></li> <li>○13.4 The impact of foot complaints on quality of life in patients with rheumatoid arthritis – <i>Simon Otter, United Kingdom</i></li> </ul>
Oral session 14 Room G107	<p><b>What you should know about your patients</b> – Chair: <i>Trevor Prior, United Kingdom</i></p> <ul style="list-style-type: none"> <li>○14.1 Development of foot care education for people with diabetes presently at low risk of complications – <i>Alistair McInnes, United Kingdom</i></li> <li>○14.2 Patient satisfaction in podiatry practices in the Netherlands – <i>Frank te Molder, The Netherlands</i></li> <li>○14.3 The international obesity epidemic and its relationship to pediatric flatfoot – <i>Paul Scherer, United States of America</i></li> <li>○14.4 PSTTA – Pedal soft tissue temporary augmentation. Avoiding bone surgery with a needle – <i>Bret Ribotsky, United States of America</i></li> </ul>

	Interactive session 13	Live foot clinic: treatment of the diabetic foot – <i>Ingrid Ruys, The Netherlands</i> Emerald Room
	Interactive session 14	Examination of the diabetic foot – <i>Joselien van Iersel, The Netherlands, Miranda van Mol, Room G104-105 The Netherlands and Anand Manichand, The Netherlands</i>
12.45	Plenary session: Chair: <i>Margreet van Putten, The Netherlands</i>	
12.45	Closing Auditorium	Award presentation for best oral and best poster Podiatry worldwide: now and in the future – <i>José Roofthoof, Belgium and Margreet van Putten, The Netherlands</i> Presentation of the organizing country of the 21st FIP World Congress
13.30	Lunch and departure	

## Posters

### Topic I: Biomechanics, gait analysis and sports

- PI.01 Foot pain, cosmesis and functional limitation related to hallux abducto valgus in healthy adults: a pilot study  
*Sheree Nix, Australia*
- PI.02 The limitation of the first metatarsophalangeal joint is associated to the longitudinal arch angle? More frequent in men or women?  
*Ana Belèn Ortega, Spain*
- PI.03 Orientation of the subtalar joint axis – a reconsideration of what the papers really say  
*Ivan Birch, United Kingdom*
- PI.04 Withdrawn
- PI.05 Evaluation of the gait cycle and plantar pressure in diabetic patients: new device WalkinSense  
*Fernando Miguel Dias Oliveira, Portugal*
- PI.06 Withdrawn
- PI.07 Association between temperature increase and tri-axial loading under the foot  
*Vincent Hetherington, United States of America*
- PI.08 Plantar pressure assessment during various ballet movements: a pilot study  
*Robert Ashford, United Kingdom*
- PI.09 Effect of sensory plantar variation on quantified gait analysis  
*Marc Janin, France*
- PI.10 Withdrawn
- PI.11 The nature and extent of foot ankle injuries in footballers  
*Simon Otter, United Kingdom*
- PI.12 Effect of custom orthose correction on posture-kinetic capacity to practice sports barefoot: judo  
*Marc Janin, France*
- PI.13 Lower extremity sports medicine dermatology  
*Dock Dockery, United States of America*
- PI.14 A preliminary study of the aerodynamics of a medium/long distance running shoe  
*Roberts Ashford, United Kingdom*
- PI.15 Posterior tibial tendon dysfunction – a presentation reviewing this debilitating condition  
*Beverly Durrant, United Kingdom*
- PI.16 Validity and reliability of hallux valgus angle measurement using digital photography  
*Sheree Nix, Australia*
- PI.17 A survey into the use of, and attitudes to, radiographic assessment of hallux valgus in the UK departments of podiatric surgery  
*John Malik, United Kingdom*
- PI.18 Withdrawn
- PI.19 Modification of plantar tactile cues and postural control  
*Marc Janin, France*
- PI.20 Experimental investigation into the effects of temperature on the performance of footwear midsole foams subjected quasi-static compression loading  
*Mohammad Reza Shariatmadari, United Kingdom*
- PI.21 The effect of Masai barefoot technology (MBT) shoes on ankle joint complex kinematics and plantar heel pressure distribution  
*Simon Otter, United Kingdom*
- PI.22 Skate boot fit and foot function  
*Joseph Stern, Canada*
- PI.23 Foot Posture Index for the prediction of a nociceptive capacity of a plantar irritating stimulus  
*Marc Janin, France*

## **Topic 2: Surgery**

- P2.01 Creating the world of augmented podiatric surgical training (CWAPST)  
*Robert Ashford, United Kingdom*
- P2.02 Poly-L-lactic acid (PLLA) fixation in podiatric surgery  
*Joaquín Páez Moguer, Spain*
- P2.03 Surgical correction of flexible flatfoot: subtalar arthroereisis with a sinus tarsi implant  
*Joaquín Páez Moguer, Spain*
- P2.04 Evaluation of the significance of using an osteotomy guide during bunion surgery  
*Vincent Hetherington, United States of America*
- P2.05 Withdrawn
- P2.06 Subtalar stabilization – The role of arthroereises  
*Michael Graham, United States of America*
- P2.07 Improvement of balance and strength in the lower extremity with nerve decompression surgery  
*James Anderson, United States of America*
- P2.08 Intra-operative EMG nerve testing and its correlation to subjective improvement in patients with neuropathy  
*James Anderson, United States of America*
- P2.09 Transfer of the flexor digitorum longus or flexor digitorum brevis tendon for claw toe deformity: a finite element simulation study  
*Ricardo Becerro-de-Bengoa-Vallejo, Spain*
- P2.10 Plastic closure of circular defects of the foot and ankle  
*Dock Dockery, United States of America*
- P2.11 Withdrawn
- P2.12 Withdrawn
- P2.13 Withdrawn

## **Topic 3: Organization of foot care all over the world**

- P3.01 Withdrawn
- P3.02 Transformational leadership: where now for podiatry?  
*David Wylie, United Kingdom*
- P3.03 The international mobility of UK podiatry students. A partnership between the University of Southampton and the Postgraduate Allied Health Institute at Singapore General Hospital  
*Keith McCormick, United Kingdom*
- P3.04 Withdrawn
- P3.05 Podiatric factors in differential preservation of feet in running shoes  
*Brian Brodie, Canada*
- P3.06 Ohio College of Podiatric Medicine Plan for the assessment of student outcomes  
*Vincent Hetherington, United States of America*
- P3.07 Withdrawn
- P3.08 Bachelor of podiatry in Spain  
*Ana Maria Jimenez-Cebrian*

## **Topic 4: Dermatology**

- P4.01 Spectrum and prevalence of fungi infecting deep tissues of lower limb wounds in type 2 diabetic patients  
*Gopi Chellan, India*
- P4.02 Olmsted syndrome: a rare form of palmo-plantar keratoderma  
*Despina Theodorou, Cyprus*
- P4.03 The effect of footcare and yokuinin on hyperkeratosis-related symptoms of the foot  
*Yukiyo Yokoyama, Japan*
- P4.04 Retrospective 6 month study of new maser modality demonstrates improved effectiveness in treating onychomycosis  
*Michael Uro, United States of America*
- P4.05 Effectiveness of podiatry care on onychomycosis : design of randomized control trial  
*Irene Garcia Paya, Spain*
- P4.06 Incidence of malignant tumors of the foot at the pathological anatomy service in Malaga  
*Encarnacion Cortes, Spain*
- P4.07 Case study: Treatment of recalcitrant viral wart utilizing homeopathic podiatry  
*Jane Greenwood, United Kingdom*
- P4.08 Skincare of the feet of diabetic patients; report of an expert meeting

## **Topic 5: General podiatry**

- P5.01 Research capacity development in podiatry: the experience of the UK Society of Chiropractors and Podiatrists  
*Jackie Campbell, United Kingdom*
- P5.02 Task lighting levels in podiatric domiciliary practice: How safe are practitioners and patients?  
*Gordon Burrow, United Kingdom*
- P5.03 6 month treatment outcomes for plantar heel pain using a combination of 0.5% Bupivacaine injections and stock orthoses  
*David Wylie, United Kingdom*
- P5.04 The orthotic therapy in forefoot pain with biomechanical origin  
*Luca Avagnina, Italy*
- P5.05 Clinical efficacy of bespoke compared with over-the-counter foot orthoses for plantar heel pain  
*Simon Otter, United Kingdom*
- P5.06 Foot health of older people in home care  
*Minna Stolt, Finland*
- P5.07 Withdrawn
- P5.08 Incidence rates of health problems in Dutch podiatry patients  
*Saskia de Waal, The Netherlands*
- P5.09 The current treatment protocol for verucca pedis used by podiatrists in private practice in Johannesburg, South Afrika  
*Fatima Cassim, South Afrika*
- P5.10 Orthopodological benefits of the mould in unloading  
*María Hermas Galán-Hurtado*
- P5.11 A new approach to diabetic wound healing, Graftjacket, and other uses  
*Jeffrey Ross, United States of America*
- P5.12 New efficient method for treatment and preventing of pressure sores on the heel at patient with diabetes or atherosclerosis  
*Bent Nielsen, Denmark*
- P5.13 Alternative treatment of foot orthoses: insoled with liquid silicone gauntlet combination  
*Jesus Montes Alguacil, Spain*

## **Topic 6: Podopediatrics**

- P6.01 Orthonyxia as non-operative treatment for the ingrown toenail  
*Schelto Kruijff, The Netherlands*
- P6.02 Withdrawn
- P6.03 Withdrawn
- P6.04 Does growth hormone have a disproportionate effect of feet in height management of girls with Turner syndrome?  
*Gordon Watt, United Kingdom*

## **Topic 7: Chronic diseases**

- P7.01 An investigation of changes in patient reported foot impact of rheumatoid arthritis after one year  
*Catherine Bowen, United Kingdom*
- P7.02 Withdrawn
- P7.03 Withdrawn
- P7.04 Diabetic foot complications – Our experience in its managements?  
*Hamza Aboud, Iraq*
- P7.05 Withdrawn
- P7.06 Diabetic foot self-care survey in eastern Finland – foot self-care, foot self-care education and foot screening  
*Arja Tiiptana, Finland*
- P7.07 Osteoporosis – the fall that causes the fracture  
*Jeffrey Ross, United States of America*
- P7.08 A comparison between a new automatic system and Doppler method for obtaining ankle brachial pressure index  
*Jane Lewis, United Kingdom*
